

AMAREH ALI BARREH

SYSTEM AND NETWORK
ADMINISTRATOR

CAREER OBJECTIVE

I am an eternal autodidact, I like to learn new things and take on real challenges. Specialized in web development, I create web applications to improve myself in this field without neglecting my learning in systems and networks. The world of computer science is big and I don't limit myself, nor rest on my knowledge.

SKILLS

- Python
- JavaScript
- HTML | CSS
- Data Base
- Django
- React
- Bootstrap
- Adobe Suite
- Collaborative work
- Cisco Packet Tracer
- Rest API
- Deployment
